

DUPR RATING INSTRUCTIONS

DUPR matches are run during VICTORIUM leagues. Alternatively, anyone can initiate their own rating - anywhere, anytime.

If you want to initiate a DUPR rating or continue updating your rating on your own:

OPTION 1

Play a local tournament listed on Pickleball Tournaments.com (most tournament data is added to the DUPR software so that initial ratings are created).

OPTION 2

Set up a DUPR match with one or two players who already have a DUPR rating. Then enter your scores. This match can be played at your own convenience.

If you already played in a tournament, you may have an account already. To Claim an Existing account:

- 1) Go to www.mydupr.com
- 2) Click "Search Players" and type in your name.
- 3) If your name shows up, click on your name and scroll down to click on Match History.
- 4) If the match history is yours, click the "Claim" button next to your name.
- 5) You will be prompted to enter your birthdate, address and password.

If your name does not show up

- 1) Follow steps to create an account.
- 2) Download the DUPR app onto your phone.

To Enter a match played at VICTORIUM or *elsewhere:

*All players must have a DUPR account set up.

*At least one player, (we recommend two), needs to have an existing DUPR rating.

Only ONE person needs to enter the match/scores. **At VICTORIUM, one player from the losing team enters the scores.*

- 1) Open DUPR app on phone.
- 2) Click Add Match (on bottom of screen with + sign)
- 3) *Must enter Location - type Scottsdale, AZ (you can also enter VICTORIUM, and the address of the facility - 9219 E Hidden Spur Trail, Scottsdale, AZ 85255 - will come up as the bottom choice.)
- 4) In Event Name - type VICTORIUM, then press next
- 5) Click "+ Add your partner" and type in name. If the player already has a DUPR account, her/his name should appear. Select and click "**Add Player**" - button is on top right.
Please do not click "Invite Player" if that player already has an existing DUPR account. If they accept your invite, a duplicate account will be created.
- 6) Add score - type in the scores of the first game, click the green plus sign to add another game.
- 7) Add opponents names.
- 8) Double check details, scroll down to "submit".

- 9) An email will be sent to opponents to validate.
- 10) Only ONE person from the opponents team needs to validate the match. **At VICTORIUM, one player from the winning team validates the match.*
- 11) The person who is validating the match should open DUPR app, go to Match History, check details, then click “validate”.

****Follow the above directions to enter matches not played at VICTORIUM. Change the Event Name and Location accordingly.***
